 Portfolio

Professional Profile

Dedicated B.Tech Artificial Intelligence and Data Science student with internship experience in AI-Integrated IoT, Data Analytics, and Full Stack Development. Proficient in Python, Java, web technologies, and database management, with strong problem-solving and communication skills. Eager to contribute technical expertise and grow in a challenging professional environment.

Technical Skills

- **Programming Languages:** Python, Java, JavaScript, HTML, CSS, C
- **Frameworks & Libraries:** React.js, Django, Flask, Bootstrap, Django REST Framework
- **Databases:** MySQL, PostgreSQL, SQL, Supabase
- **AI / ML Technologies:** Machine Learning Fundamentals, Data Analysis, Data Visualization, Artificial Intelligence, AI-Integrated IoT, Exploratory Data Analysis (EDA)
- **Tools & Platforms:** Git, GitHub, VS Code, Firebase, Microsoft Excel, Jupyter Notebook, Antigravity
- **Other Technologies:** REST APIs, Web Application Development
- **Professional Skills:** Communication, Team Collaboration, Analytical Thinking, Time Management, Adaptability
- **Software & Development Practices:** Object-Oriented Programming (OOP), Database Design, Version Control, Problem Solving, Debugging

Projects

• AI Resume Analyzer

An AI-powered platform that analyzes resumes, calculates ATS scores, and provides personalized improvement suggestions. Tech Stack: React, TypeScript, Supabase, Gemini API

• NULLFRAME — Selective Reality, Live (June 2026)

Browser-based CV app enabling real-time gesture-controlled video cloaking (full-body, portal, focus-region) and AR hologram overlays using MediaPipe hand tracking and segmentation, with zero backend; built with JavaScript, Vite, Canvas API.

• MediVault AI Health Assistant (July – 2026)

A secure healthcare platform for managing medical records with AI-powered document summarization and health insights. Tech Stack: React, Django, PostgreSQL, Gemini API

• AI Smart Campus Assistant (July – 2026)

An AI-driven campus assistant that provides academic information, event updates, and student support through a chatbot interface. Tech Stack: React, TypeScript, Supabase, Gemini API

• AI Financial Expense Tracker (August – 2026)

A personal finance management system that tracks expenses and provides AI-based budgeting and savings recommendations. Tech Stack: React, TypeScript, Supabase, Gemini API

Internships & Professional Experience

Full Stack Web Development Intern - Pantech eLearning Pvt. Ltd.

- Built full-stack features, collaborated in an agile team; contributed to a project that included role-based authentication and CRUD workflows.

AI-Integrated IoT Intern – CSIR-CECRI, Karaikudi

- Worked on AI-integrated IoT solutions involving sensor data collection, monitoring, and real-time analysis.
- Explored ESP32-based systems, data visualization, and AI-driven insights for intelligent automation.
- Gained hands-on experience in IoT architecture, embedded systems, and applied Artificial Intelligence. **AI in Data**

Analytics Intern – Vedant IT Solution Pvt. Ltd.

- Performed data analysis and visualization using Python and modern analytics tools.
- Worked on data preprocessing, exploratory data analysis (EDA), and generating business insights from datasets..

Soft Skills

Problem Solving , Analytical Thinking , Communication Skills , Team Collaboration , Leadership , Adaptability , Time Management , Critical Thinking

Extracurricular

Member, ISTE Student Chapter - Karpagam Academy (First year - present).

Led technical events, coordinated workshops, and managed student outreach.

Member - AiQubit Association (Second year - present)

Department student association for advanced learners, selected through a competitive process.

Hackathons & Competitions

Hackspora 2K25 – 24-Hour National Level Hackathon

- Organizing Committee Member, AiQubit Association, Karpagam Academy of Higher Education
- Coordinated planning and execution of a national-level 24-hour hackathon with multi-stage reviews.

தீர்வு'athon 2025 – Idea Pitch Hackathon

Presented Smart Helmet Security System, an AI-based rider safety solution using helmet detection and face recognition.

Participant, PSG College of Arts and Science.

Presented Smart Helmet Security System, an AI-based rider safety solution using helmet detection and face recognition.

Training Programs

• 5-day Skill Development - Artificial Intelligence using Microcontrollers

CSIR Central Electrochemical Research Institute (CECRI), Karaikudi.

• 6-day Workshop - Universal Human Values

All India Council for Technical Education.

Certifications

- Certificate of Merit - National AI Olympiad 2025 (Advanced), All India Rank 16
- Won 1st Prize in World Environment Day Poster Presentation on “Social Justice & Equality” at Karpagam Academy of Higher Education (2026).
- Secured 3rd Prize in Math Feast 2025 Quiz Competition organized by the Department of Science & Humanities, KAHE.
- Won 3rd Prize in Poster Presentation at the Workshop on Entrepreneurship & Innovation as a Career Opportunity, KAHE (2024).

Education

• B.Tech - Artificial Intelligence and Data Science – CGPA: 7.8

Karpagam Academy of Higher Education - (2024 - 2028)

• Higher Secondary Certificate (XII) – 74.5%

Star Matriculation Higher Secondary School, Tuticorin - 2024

• Secondary School Leaving Certificate (X) – 73%

Star Matriculation Higher Secondary School, Tuticorin - 2022

Language

- Tamil (Native) • English (Professional)

Interests

- Drawing , Coding , Learning new things , Football
